

Learning through play in the early years

“Play is our brain’s favourite way of learning.” Diane Ackerman

Children learn through play. Play helps them to develop empathy, critical thinking, problem solving, communication, social skills and so much more. This workshop will provide fresh ideas of how we can encourage and develop all of these through a range of play activities in the classroom.

This training can be adapted and modified to suit the individual needs of the school/organisation. It could be delivered as either a one day, half day or series of twilight taster sessions but is most effective as a one day course (or over 2 half day sessions).
