

Understanding dyslexia and supporting pupils, teachers and parents

Teachers are having to support more and more pupils with dyslexia, dyspraxia and other specific learning difficulties. These workshops will help teachers gain a deeper understanding of how dyslexia affects them and the impact on their learning, self-esteem and school experience. There are many ways in which teachers can support pupils with dyslexia at a whole class level, group level and individual level. We will explore all of these with a very practical hands-on approach so that teachers can return to their classrooms armed with greater knowledge, strategies to try and resources to refer to.

This training can be adapted and modified to suit the individual needs of the school/organisation. It could be delivered as either a one day, half day or series of twilight taster sessions but is most effective as a one day course (or over 2 half day sessions).
