

Supporting English Teachers and Leaders

The best CPD is grown from within, so Mark will work alongside the English Subject Leader and key colleagues. *‘Together, we will plan, deliver and evaluate training for your staff team. We will focus on a specific aspect of your school improvement plan and grow capacity for ongoing improvement.’*

Every school’s needs are different, but training offers might include:

- Teaching and learning
- Spelling – Mark will work with your staff to explore the most effective ways to teach spelling. The ideas shared can be embedded across the curriculum, ensuring that pupils learn to think about, apply and explore words with curiosity and confidence.
- Supporting subject leaders
- Reading and Writing MOTs – We will evaluate the reading or writing different year groups, key stages or throughout the school against best practice in those schools where there is the best progress.
- Metacognition and thinking skills
- Oracy across the curriculum
- Best practice in Reading
- SATs prep
- Intervention to close attainment and progress gaps
- Once whole-school priorities have been ascertained, Mark will support the team to deliver INSET to staff, or by delivering INSET to staff.

“Thank you so much for an excellent day. I had so much positive feedback from all our staff both teachers and TAs. Really well received; everybody is raring to go which is exactly what we wanted.”

Sundridge Kent
